

# 26K24040A

# AC Load break switch SIRCO 4P 400A

## Strong points

- Reliability and performance
- Safety of property
- Simplicity
- Easy to install

#### General characteristics

- Double positive break indication given through a position indication window, located directly on the product, and by the operating handle.

- Severe load duty categories (AC-22 and AC-23).
- High resistance to damp heat (supplied "tropicalised").

- References includes switch, interphase barriers (exept frame B2), 200mm extension shaft and external handle.

#### Compliance with standards

- IS - IEC 60947-3

Access to resources (ex: manuals)

https://www.socomec.co.in/enin/reference/26K24040A SIRCO are manually or remotely operated multipolar load break switches. As switch disconnector, they make and break under load conditions and provide safe isolation.

They are designed for heavy duty applications up to 415 VAC - AC 23. Supplied "tropicalized" as standard, they can be installed in any environment
