

## 95254080SLVR

# Remotely operated transfer switch ATyS C 4P 800A

#### Strong points

- Rapid commissioning
- Watchdog relay to check product availability
- RS485 communication
- Cable harness
- All in one TSE

### General characteristics

- Mains/Mains or Mains/Genset networks.
- ATS with 3 stable positions: I 0 II.
- Built-in mechanical interlock.
- Emergency manual operation handle.
- Top or bottom incoming sources.
- ATS controller self-powered from sensing: 184 300 VAC.
- ATS controller optional 24 VDC aux power supply.
- Three-phase + Neutral or Single-phase
- + Neutral networks.
- Voltage sensing on all phases.
- Phase rotation checking.
- RS485 Modbus communicaton.
- Door or DIN rail mounted controller.
- Includes bridging bars (up to 1600A).

#### Compliance with standards

- IEC 60947-6-1

ATyS C are 4 pole automatic transfer switches, with positive break indication. They incorporate the functions intended for mains/mains applications and mains/genset applications.

In automatic mode they enable the monitoring of, and the on-load changeover between, two power supply sources, in accordance with the parameters configured via DIP switches.

They are intended for use in low voltage power supply systems where a brief interruption of the load supply is acceptable during transfer.

Remote monitoring of the ATyS C is possible through RS485 communication.
