

Socomec group environmental policy

As a manufacturing Company for 100 years, Socomec places great importance on Sustainable development. Protecting people and the Environment is deeply rooted in our corporate DNA.

The aim of our environmental policy is to reduce our environmental impact and carbon footprint.

Our commitments are as follows:

- To comply with **legal and compliance obligation** in terms of the environment and, more generally, sustainable development.
- To **reduce the environmental impact** of our products through **eco-design**.
- To implement an **effective environmental management system**. Ensure activities like adopting policies, procedures and processes which lead to **continual improvement in environmental performance**
- To **optimize the energy consumption** of our manufacturing and commercial sites,
 - By prioritizing high-energy performance buildings, renewable energy and all initiatives that contribute to energy savings.
 - By encouraging everyone to become aware of their ability to act in this field.
- To ensure strict **management of our industrial waste**,
 - By reducing the tonnage of waste from all production sites as much as possible,
 - By collecting and sorting our waste and increasing the rate of recovery of this waste.
- To raise **staff and interested parties awareness of environmental issues** and the impact of our products on the environment.
- Committed to provide this policy to all interested parties.

Our environmental performance is based on an environmental policy that is backed by all employees and interested parties at our sites.

This policy is therefore managed, developed and implemented within each entity as part of an action plan that sets environmental objectives.

The members of the board of directors monitor the implementation of this

Policy and require that each person makes a responsible commitment.

A handwritten signature in black ink, consisting of several loops and a long horizontal stroke, positioned above the name of the signatory.
